Strategic Leadership for Oil & Gas Executives

Strategic Operations Management

Master the intricacies of project economics and investment decision making at a time of wobbling oil prices. Use actual case studies to perform sound investment evaluations and deliver "project bankability" to stakeholders.

Join fellow senior executives to enrich your leadership competencies and position your teams for success in a rapidly changing oil industry.

Apply innovative Operational Excellence frameworks to turn strategy into actions that deliver profitability and growth. Grab the skills to properly analyse, evaluate and recommend changes in the operations strategy of your organisations to gain competitive advantage.
